—Mrs. Best, the librarian at the public library, is frequently greatly annoyed by a crowd of unruly boys, of tender years, who sometimes crowd into the library rooms when her time is occupied with patrons of the library. These boys are in the habit of mutilating the papers and magazines lying upon the table, and cutting up capers, and generally showing anything but good instruction from their parents.

We understood that an officer will be in waiting, when least suspected by the boys, and that they or their parents, will be made to answer for the depredations committed. The hoodlums have no business in the library rooms, and force should be used to exclude them.

—The Le Beau, Dakota, Leader, published by Mr. W. C. Brown, formerly of the Clinton Herald, this county, published the following in his paper of January 5th: New Years morning the thermometer registered sixty degrees below, and it has been pronounced the coldest weather ever known in Dakota. Occurens the temperature was low, but there was no snow, and we know from personal observation that 60 degrees below zero in this dry atmosphere is not felt so much as 80 degrees below in the damp air of southern Wisconsin. This may seem strange, but it is a fact. By our weather record in north column it will be seen that the weather has grown much warmer, and it is evident that our extreme cold weather has passed. The thermometer indicated 45 degrees above zero at noon to-day.

—Mr. George Stockton, formerly a dry goods merchant of this city, died at his home in Amelia, Ohio, Monday afternoon, of consumption. He removed from here to Madison three years ago, and of him the Journal says: "He was a genial, social young gentleman, and found much enjoyment in the social events of the city. After remaining in Madison for a period of two years, lacking about a month, his health, which had caused him much solicitation previously, became still more shattered, and in the hope that a respite from business in the quietude of his Ohio home would prove beneficial, he packed up his stock last summer and removed to that home. That insidious disease, consumption, had, however, fastened its unrelenting grasp upon him, and gradually he wasted away till the culmination was reached."

—Ralph Kline, a brakeman employed on a freight train running between this city and Rockford, met with a serious accident on Sunday morning in Rockford. The train had arrived in the latter city

and the engine was doing yard work.

says the Register, Kline being on duty at the breaks. After switching for some minutes, the engine started down one of the tracks that in the darkness appeared to be clear. Kline started for a brake before he reached it, the train violently collided with an empty car standing on the rails. The shock was tremendous and of such force that the unfortunate brakeman was thrown from his feet and precipitated to the ground below.

His attack came down directly on one of the rails, his right eye and brow suffering in consequence and the terrible force of the fall depriving the brakeman of consciousness. He lay on the rail upon which the train was moving and to the horror-stricken comrade of the injured brakeman, it looked as if he would be ridden down and cut in twain by the moving cars. The preservation of the brakeman's life is due to the fact that the violence of the collision threw his car from the track and thus impeded in its course the train was brought to a standstill without inflicting further injuries to the already badly lacerated man.

It was found that besides the badly-bruised eye, the brakeman's thigh was also painfully injured, with both hands and the lower part of both arms severely bruised, lacerated and oozing with blood.

COUNTY LEGISLATURE.

January Session of the Board of Supervisors.

Miscellaneous Proceedings.

At the conclusion of District Attorney Malone's remarks, yesterday afternoon, on the powers of the board to appoint a county agent—

Mr. Gunn moved that the chair appoint a committee of three to ascertain the powers of the county board to appoint a county agent to purchase supplies for the county poor, to report at ten o'clock to-morrow.

The chair appointed as that committee Messrs. Gardner, Burdge and Aller.

Mr. Burdge introduced a resolution appropriating fifty dollars for the support of John Brosse. Adopted.

The following resolution was presented by Mr. Gunn:

Whereas, The records of this office show that from 1877 to 1878 Rock county paid out to different individuals for clerk hire, extra services of clerk, and as county agent the sum of \$1,039.30; and

Whereas, a salary for eight years named previously to 1877 the sum of \$12,839.30, and for the same service performed by Sylvester Morgan for the past eight years the clerk hire only paid twenty dollars for extra clerk hire and including salary of \$8,000 making a difference between the two sums paid for a similar service of \$2,719.30, and inasmuch as Mr. Morgan has never received any pay for valuable services rendered as county agent during the term of office, we deem it proper and right, and in accordance with a custom heretofore established, to pay for such service. Therefore,

Resolved, That the sum of \$400 be and is hereby appropriated to Sylvester Morgan for services rendered as county agent for the past eight years.

Mr. Burdge moved that the resolution of Mr. Gunn be made the special order for to-morrow morning at eleven o'clock.

Made the special order for 2 p. m.

Mr. Gunn, of the committee on Ac county of receiving and disbursing officers made the report of that committee, which was adopted.

The special order for this hour, the consideration of the resolution offered by Mr. Gunn, allowing \$5,000 as county agent, was called up and on motion of Mr. Gunn the resolution was indefinitely postponed.

Mr. Tarrant offered a resolution instructing the superintendents of poor not to furnish luxuries or delicacies to the poor except in cases of dire necessity. Adopted.

Mr. McIntyre, presented a resolution requesting the members of the legislature from this county to procure the passage of the following amendment to the Revised Statutes:

"Amend section 1544, R. S., by adding thereto, on fifth line from bottom, after the words 'six months,' the following: or, in the discretion of the justice who such defendant if a male person, over sixteen years of age, may be punished by imprisonment in the county jail to be fed on bread and water only, for not more than fifteen days."

Mr. Burdge, of committee on rules, made a report, pending which the board adjourned until 2 p. m.

Two o'clock p. m.—Called to order by Chairman Greenman. Roll called and quorum present.

The report of the committee on rules was taken up, and on motion of Mr. Burdge, the special business for this hour was postponed for one hour, and the board resolved into a committee of the whole, to consider the report of the committee on rules.

THE WORLD'S EXPOSITION.

New Orleans, Jan. 9th, 1893.

We have been in the city nearly a week and this is the first hour I have had that I thought could be spared to write letters home. The question with the readers of the Gazette is "What does Daniel and company think of the great exposition?" I will answer for Daniel. It is immense as a show of American agricultural products, American machinery, farming implements and fruits, but when you come here looking for a world's fair such as the one at Philadelphia, you will go away disappointed. There are really no foreign exhibits from South America. It is true some of the Asiatic countries are represented by stands or booths where they are offering their handiwork in the shape of toys and trinkets for sale; some of them presided over by Americans but mostly by natives; but the goods they represent are coming from the oriental countries or holy land are mostly manufactured in America, none the less only on that account.

Messrs. Holton, Merrill, Smith and others in charge of the Wisconsin exhibits are the right men for the place; all old men and I should judge had read Poor Richard's Almanac in their younger days and still remember some of its wholesome maxims, one of which was "If you want a thing well done do it hard."

For they had their coats of hard work. They have got Wisconsin in pretty good shape and when they get everything in shape, will have more time to spend with Wisconsin people; as it is they will drop their saw or their hammer long enough to show you into their parlor, tell you where to put your papers and coats, hand you Wisconsin wafers, invite you to register, tell you to call whenever you are tired, and ask to be excused; and then go to work again.

While Wisconsin exhibits are not as extensive as some of the northwestern states, yet I think they were none more nicely arranged. Dakota, Nebraska, Kansas, and Colorado are trying to outdo each other in the display of the products of their fields, forests, plains and mines. The exhibits are arranged in a very respectable country fair. Colorado takes the lead of all others in the exhibition of minerals. To give the readers of the Gazette some idea of the arrangements here, I would state that the largest of the buildings, or as it is called, the main building, is occupied by the whole United States in common for the exhibition of the manufactures and machinery of the different states, but is largely occupied by Jews, Gentiles and Mohammedans, as they call the sale of trinkets and when they talk of not having room for all the exhibits, it is all bosh. If they would remove every one in the building who are offering their goods for sale and selling them wherever they can find a customer, there would be plenty of room for all exhibitors. The next building in size is called the government building and in this cash store as much space as it desires. Set aside for the term of office, we deem it proper and right, and in accordance with a custom heretofore established, to pay for such service. Therefore,

Resolved, That the sum of \$400 be and is hereby appropriated to Sylvester Morgan for services rendered as county agent for the past eight years.
